CARPET CUSTOMIZATION

Hand tufted carpets offer a wide range of design and customization options to meet your specific needs and preferences.

REFLECT YOURSELF

Work with a designer to create a one-of-a-kind pattern for your carpet. Then we produce it with passion.

ABOUT

HAND TUFTED

Hand tufted carpets are a popular choice for interior decoration due to their unique texture and design. These carpets are made by punching strands of wool or other fibers into a canvas or fabric backing using a tufting gun.

The result is a soft and plush carpet that can be customized to fit any design aesthetic. Hand tufted carpets are a great option for those looking for a high-quality, durable, and stylish flooring solution.

Production Process

Design

The design for a hand tufted carpet is first created on paper or digitally. This design is then transferred onto a canvas or fabric backing.

Tufting

The tufting process involves using a tufting gun to insert yarn into the canvas or fabric backing. This process creates the pile of the carpet.

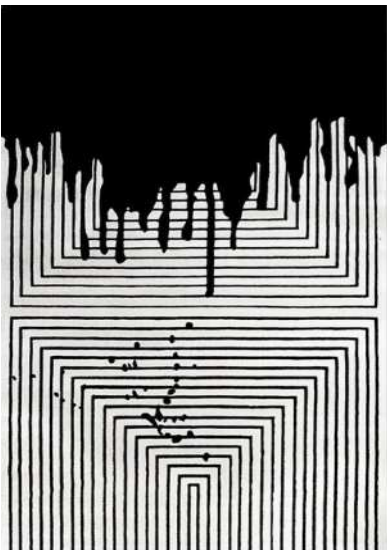

Finishing

After the tufting process is complete, the carpet is sheared and trimmed to create an even surface. The carpet is then stretched and cleaned to remove any excess yarn or debris.

Let's design

VALENTINA BLACK

Product code: 100220-2

A unique handtufted wool and Viscose rug with three layer of pile which make you feel deep emotions.
